

One year to go until the IUMI 2027 Conference in Yokohama

The General Insurance Association of Japan (GIAJ) will host the 2027 Conference of the International Union of Marine Insurance (IUMI) at Pacifico Yokohama from 19 to 22 September 2027.

The IUMI is an international organisation comprising insurance associations from various countries and regions, with the aim of promoting the development of marine insurance and related industries.

The IUMI Conference is held each September, rotating among the member associations. This will mark the sixth time Japan has hosted the event, the first time in 10 years.

The 2026 Conference, held in Rotterdam, the Netherlands, from 20 to 23 September 2026, was attended by over 800 marine insurance professionals from around the world, who discussed the challenges facing the industry and its prospects. As the host association for the 2027 Conference, the GIAJ carried out promotional activities at a stand within the venue. The GIAJ also received the Conference flag and screened a PR video at the closing ceremony to build excitement for the Yokohama Conference.

In addition, the dedicated website for the IUMI 2027 Conference (<https://iumi2027.com/>) has been launched, featuring the PR video and details regarding sponsorship opportunities. The GIAJ has already received expressions of interest from numerous companies wishing to contribute to the Conference as sponsors. Information regarding registration and the Conference programme will be announced on the website in due course.

The GIAJ will continue to work closely with the IUMI Secretariat to ensure steady progress in the preparations for the 2027 Conference.
